

TEPA

Technical DataSheet | Supplied by Tosoh

Tetraethylenepentamine (TEPA) by Tosoh is a curing agent for epoxy resins. Designed for coatings applications. TEPA is free of suspended matter.

Product Type	Crosslinking / Coupling / Curing Agents > Amines
Chemical Composition	Tetraethylenepentamine
CAS Number	112-57-2
Physical Form	Various
Product Status	COMMERCIAL
Applications/ Recommended for	Coatings Resins > Epoxies

TEPA Properties

Property	Value & Unit	Test Condition	Test Method
Specific Gravity	0.998	At 20°C	
Boiling Point	340 °C	At 760 mm Hg	
Melting Point	-30 °C		
Flash Point	171 °C	Cleveland Open Cup	
Color, APHA	< 5		
Amine Value	1.290 - 1.370 mgKOH/g
