

Cyclohexanone.

Technical DataSheet | Supplied by Keeneyes Industrial

Cyclohexanone. Acts as a solvent. It is an organic compound consisting of six-carbon cyclic molecule with a ketone functional group. Usually, it is colorless oil with an odor reminiscent of pear drop sweets as well as of acetone. Used in paints.

Product Type	Solvents > Ketones Solvents >> Ketones >> Cyclohexanone
Chemical Composition	Cyclohexanone
CAS Number	108-94-1
Product Status	COMMERCIAL
Applications/ Recommended for	Coatings

Cyclo Properties

Property	Value & Unit	Test Condition	Test Method
Boiling Point	155 °C	At 760 mm Hg	
Flash Point	46 °C		
Vapor Pressure	4.5 hPa	At 20°C	
Evaporation Rate (n-BuAc=100)	29
