

PC CAT® DMCHA

Technical DataSheet | Supplied by Performance Chemicals Handels

Product Type	Crosslinking Catalysts / Accelerators / Initiators > Amine or Nitrogen Content
Chemical Composition	Dimethylcyclohexylamine
Masterbatch	No

CAS-no.: 98-94-2

EC no.: 202-715-5

Specification:	Appearance at 20°C:	Colourless to slightly yellow transparent liquid
	Purity, GC (%):	min. 98.0
	Water (%):	max. 0.2

Characteristic properties:	Refractive Index:	1.4520 - 1.4545
	Flash point (°C):	40
	Water solubility:	insoluble
	Density at 20°C (g/ml):	0.87

Applications: - Used in rigid foams, leads to a well-balanced proportion of gelling and blowing reactions - Intermediate used in the production of agricultural chemicals -
