

Isopropyl Acetate

Technical DataSheet | Supplied by Zhengzhou Meiya Chemical Products

Isopropyl Acetate by Zhengzhou Meiya Chemical Products is a solvent with a characteristic fruity odor. Isopropyl Acetate is designed for coatings and inks.

Product Type	Solvents > Acetates
Chemical Composition	Isopropyl acetate
CAS Number	108-21-4
Physical Form	Liquid
Appearance	Transparent, Colorless
Product Status	COMMERCIAL
Applications/ Recommended for	Coatings Inks Inks

Isopropyl Acetate Properties

Property	Value & Unit	Test Condition	Test Method
Density	0.866 - 0.873 g/cm ³		
Iso-Propyl Acetate Content	> 99.5 %		
Acid Value	< 0.01 %		
Moisture Content	< 0.05 %		
Flash Point	2 - 4 °C		
Boiling Point	88.6 °C		
Vapor Pressure	47 mm Hg	At 20°C	
Evaporation Rate (ether=1)	2.5
