

Polyether Amine Jeffamine® HK-511 Amine

Technical DataSheet | Supplied by Huntsman

Polyetheramine. Offers low viscosity, color and vapor pressure.

| | |
|--------------------------------------|--|
| Product Type | Crosslinking / Coupling / Curing Agents > Amines |
| Chemical Composition | Polyetheramine |
| Physical Form | Liquid |
| Product Status | DISCONTINUED |
| Applications/ Recommended for | Coatings |
| Bio Based | No |

Jeffamine® HK-511 Amine Properties

| Property | Value & Unit | Test Condition | Test Method |
|-------------------|-----------------------|----------------|-------------|
| Color, Pt-Co | < 75 | | |
| Water | < 0.25 %wt | | |
| Viscosity @ 25°C | 11 cSt | | |
| Density @ 25°C | 8.26 lb/gal | | |
| Flash point, PMCC | 280 °F | | |
| Primary amine | > 99 % of total amine | | |
| pH | 11.2 | | |
